

Sheehy Mail Improves Operations with Fleetilla and LoadTrek

Customer: Sheehy Mail Contractors Inc.

Fleetilla Solution: Vehicle Tracking with LoadTrek Management Solution

Results: Real time reporting and improved efficiency

The Story:

Combining the superior coverage and performance of Fleetilla's GPS Vehicle Tracking technology with the LoadTrek management solution simplifies driver/vehicle management by integrating the entire tracking and reporting process.

Located in Waterloo, Wisconsin, Sheehy Mail Contractors Inc. has been contracting with the United States Postal Service for over 45 years. In addition to U.S. Mail Contracts, Sheehy Mail also services the transportation needs of many private companies. The company has 60 Semi Tractors and 130 drivers.

Fleetilla/LoadTrek Operational Improvements

Increased Fuel Economy to 7.6 mpg

- ➔ Exceeded pre-project goals
- ➔ Decreased fuel expenses an additional \$350,000

Streamlined Regulatory Compliance & Lowered Driver and Office Paperwork

- ➔ Real-time Electronic DOT Logs
- ➔ Automated Fuel Tax Data Collection
- ➔ Increased Driver Productivity 20 minutes/day

Optimized Scheduling/Lowered Missed Appointments.

- ➔ Lowered dispatcher workload
- ➔ Realized a driver to dispatcher ratio of 60:1 versus industry standard ratio of 20:1

Automated Communications

- ➔ Increased customer satisfaction
- ➔ Created a customer web portal
- ➔ Real-time Load/Job Status Update

"We have used on-board recorders since 1989, we understand the importance of knowing what our vehicles and drivers are doing on the road. We installed real time tracking devices to get the information we are used to getting in real time instead of after the trip," said John Sheehy, manager at Sheehy Mail.

Fleetilla's GPS tracking solutions are in use at over 500 organizations. LoadTrek is utilized in various vertical markets including truckload and contract carriers, fuel tanker fleets, food service industry and 3PL logistics.

"We have successfully achieved real time DOT, time card, and fuel tax data gathering. We now can send and track real time messages as well as adjust our dispatch on the fly. This system has created a virtual intranet between our office staff, mechanics, drivers and vehicles.

The Fleetilla/LoadTrek solution made our vision of a totally connected fleet a reality."
